

**Hellen Hyndman - Event Designers**

Event Designers began 3 years ago, essentially focusing on wedding planning and in home entertainmentg hosting. It has grown faster than ever envisaged in that time and now holds a great track record of also project managing large community events such as the Rodney Council Mayoral Challenge, the Silverdale Fire Service Open Day and the recent 4 day Coca Cola Beach Base event - all of which were held in Orewa and were great successes.

Weddings, especially the small and more 'intimate' styled weddings, in-home Cheffed dinners and party hosting is still an integral part of the business, as are corporate events plus some fun and 'outside the square' corporate events. We project manage events from beginning to end so you simply need to take the time to call us with your 'wish list' and we'll see to everything else - you don't need to lift a finger, yet we have no objections if you do prefer to have an active level of involvement.

We specialize in providing professional service, friendly and efficient delivery and unlimited advice, to any event, for any person, in any location. Call us - we'll make your event great.
